

Remote Support for New Hampshire Educators

**FREE online Community and Professional Development for Educators in NH
(Designed by CAST to leverage the Universal Design for Learning framework)**

ALL NH Educators now have FREE access to the Learning Designed platform. Learning Designed is a place where NH educators can access a variety of resources. You can ask questions directly to accessibility and education experts, share ideas and best practices, attend webinars, participate in professional development, or view pre-recorded professional development videos. It is a place where you can get (and give!) strategies for supporting all students online.

Here are instructions on how to create a free Learning Designed account

STEP 1: Create your Learning Designed account

In order to take full advantage of the Learning Designed collaboration and sharing tools, each New Hampshire educator will need to [create a free account](#) on Learning Designed. Please create your account, adding a picture or avatar to your profile.

STEP 2: Join the New Hampshire Department of Education Group Page

Once you have your Learning Designed user account, you can join the [New Hampshire Department of Education \(NHDOE\) group page](#).

You can go to <https://www.learningdesigned.org/nhdoe> or you can select Directory > Organization Directory from the top menu; then select New Hampshire Department of Education.

Click Join Organization on the top right. Select **I have a registration code**.

Use the code: **3324-1584222860**
